#### MILESTONE AND ACTIVITY PLAN

(Project Planning Phase)

Date	15 November 2022
Team ID	PNT2022TMID10804
Project Name	Fertilizers Recommendation System For Disease Prediction

# Fertilizer Recommendation System For Disease Prediction:

## **Milestone:**

Most farmers are faced with choosing an unsuitable crop for their land. The farmer who chooses the wrong product can quit agriculture, give up their land to industrialists or use it for other purposes. Incorrect crop selection results in less yield and lower profits. Machine Learning (ML), an application of Artificial Intelligence, is the solution. Crop recommendation will recommend the best crop to grow on their land based on soil nutrition value, climate, and other factors. It is challenging to choose the right fertilizer for each crop. Heterogeneous diseases can cause severe problems for agricultural production and quality. This recommendation system was created to address these problems. This technique allows you to combine multiple ML predictions into a single recommendation model. The models can recommend the best crop based on soil value and the best fertilizer. To build Deep learning models, you must require the following packages.

# **Activity Plan:**

#### **IDEATION PHASE**

TITLE	DESCRIPTION	STATUS
Literature Survey	Literature Survey of the Selected Projects & Gathering Information by Referring to the Technical Papers etc	COMPLETED
Brainstorm and Idea prioritization	List the Ideas by organizing the brainstorming session and prioritizing the top 4 Ideas based upon the Feasibility and Importance.	COMPLETED
Problem Statement	List of issues in the project	COMPLETED
Prepare Empathy map	To capture the User's Pains & Gains, create an Empathy Map Canvas. Also, prepare a list of problem statements.	COMPLETED

### PROJECT DESIGN PHASE – 1

TITLE	DESCRIPTION	STATUS
<b>Proposed Solution</b>	The Proposed Solution	
	Document should include the	
	Novelty, Feasibility, Social	COMPLETED
	Impact, Scalability, and	
	Scalability of the solution.	
<b>Problem Solution Fit</b>	Prepare Problem – Solution Fit	COMPLETED
	Document	
Solution Architecture	Prepare the Technology	COMPLETED
	(Solution) Architecture diagram	

# PROJECT DESIGN PHASE – 2

TITLE	DESCRIPTION	STATUS
<b>Customer Journey</b>	Prepare the customer journey	COMPLETED
	maps to understand the user	
	interactions & experiences with	
	the application	
Functional Requirement	Prepare the Functional	COMPLETED
	Requirement Document	
Data Flow Diagram	Draw the data flow diagrams &	COMPLETED
	submit for review	
Technology Architecture	Prepare the Technology	COMPLETED
	Architecture Diagram	

## PROJECT PLANNING PHASE

TITLE	DESCRIPTION	STATUS
Prepare Project Planning &	Prepare the Product Backlog,	COMPLETED
Sprint Delivery Plan	Sprint planning, stories & Story	
	points	
<b>Prepare Milestone &amp; Activity</b>	Prepare the Milestones &	COMPLETED
List	activity list of the project	

### PROJECT DEVELOPMENT PHASE

TITLE	DESCRIPTION	STATUS
Sprint 1	Develop & submit the developed	COMPLETED
	code by testing it.	
Sprint 2	Develop & submit the developed	COMPLETED
	code by testing it.	
Sprint 3	Develop & submit the developed	IN-PROGRESS
	code by testing it.	
Sprint 4	Develop & submit the developed	IN-PROGRESS
	code by testing it.
